OSHA COMPLIANCE CONSULTATION

WE GUARANTEE QUALITY

On-site workplace safety and health hazard review, ensuring your workplace meets and exceeds OSHA regulations.

WE GUARANTEE GOOD SERVICE

Personal, confidential, professional and relevant assistance specific to your business.

One of the best ways to protect your employees, eliminate hazards, and ensure compliance is to continuously assess your workplace conditions and take action where you have gaps.

- Fewer accidents
- Lower injury and illness rates
- Decreased workers' compensation costs
- Increased employee morale
- Fewer product losses

Extensive Health and Safety Consultation

- Guidance on effective safety meetings and safety committees
- Information and resources about OSHA standards and procedures
- Highly experienced consultant to present at safety-related forums such as meetings, training, business seminars or safety/health conferences

Your consultant will NOT issue citations for violations of OSHA standards or provide other businesses with information about your participation, hazards or business processes.
